

DRESS IN BLUE DAY!

Friday, March 5, 2010

Did you know that colon cancer is the second leading cause of cancer death in the United States?

Did you know that this disease is 80% preventable when current screening guidelines are followed?

Do you think others know this?

By participating in the DRESS IN BLUE DAY, you can raise awareness about colon cancer in your community and encourage people to get screened for this largely preventable disease.

You could save a life!

Contact www.ccalliance.org to learn more.
The Colon Cancer Alliance is committed to ending the suffering and death caused by colorectal cancer.
