

Wings of Hope Cancer Support Center

HOPE PROGRAM

The Wings of Hope Cancer Support Center **HOPE Program** is designed to provide financial assistance to pre-qualified patients for symptom management medications, related nutritional supplements, and transportation assistance during their cancer treatment. We recognize that there may be needed medications and supplements that are not paid for by insurance. Wings of Hope can help with co-pays also. For some patients, the high cost of gas prevents them from seeking needed treatment. For them, the HOPE Program offers bus passes or gas vouchers.

Wings of Hope Cancer Support Center collaborates with physician's offices and Union Pharmacy to implement the program. In addition to providing clients with vouchers for prescription, over-the-counter medications, and transportation assistance, **Wings of Hope personnel will also provide counseling and support to the clients and their families.**
