

# Hope Chest Renewal Room Worker Bees

## Council Bluffs Altrusa International

Local Altrusa members have taken on a service project for 2009, providing items for the Hope Chest Renewal Room. They received a grant which has enabled them to purchase fabric to make seatbelt covers, neck wraps, purchase CD's, turbans, journals, fleece to make blankets, and items to put in our survivor bags.

Every cancer patient coming to the Hope Chest Renewal Room receives a number of these items to make their journey through cancer diagnosis and treatment a little bit easier for them.

We recently have teamed up with Heartland Oncology and Radiation Oncology to provide bags to newly diagnosed cancer patients in their offices. Thank you so much for your generosity.

## Council Bluffs Girl Scout Troup #88

This second grade Girl Scout troupe also provided the Hope Chest Renewal Room with bags they made. It is so exciting to see our tenderhearted children doing something positive to show their caring for others who are going through changes in their lives.
